## 18. Are you responsible with money?

Money choices are sometimes difficult. Think about each of these situations. Discuss in your group.

### Situation 1

You lend €100 to a friend. Your friend promises to pay you back the next day but doesn't. It is a week later, and you need the money. What should you do?

### Situation 2

Your electricity bill is very high, and you cannot afford to pay it. What would you do?

### Situation 3

You and your best friend go to dinner. When the waiter brings the bill of €35, your friend does not have enough money to pay their half. In fact, your friend has only €10. What would you do?

### Situation 4

You have been very careless with money this month, by going out with friends too often. Now you realise you don't have enough money to pay the rent. You are too embarrassed to ask your family for help. What would you do?

### Situation 5
